SCIENTIFIC COURSE.

This course of studies is designed to furnish a suitable education to those who are fitting themselves for business men, for engineers, or to engage in mercantile or mechanical pursuits. Those sciences which are adapted to fit them for their chosen pursuits, will, in their case, take the place of the ancient classics. It may be expected, therefore, that upon such as complete this course of studies, the honors of the College will be bestowed, and the degree of Bachelor of Sciences conferred.

PREPARATORY DEPARTMENT.

This department furnishes peculiar facilities for a thorough elementary English education, and embraces such studies, including the elements of the Latin and Greek languages, as are necessary for admission in full, into the classical course of the College Department. Peculiar attention is paid to the pronunciation, etymology, and syntax of these languages. The object is not to hurry pupils from one author to another, but to make them perfectly familiar, before entering college, with all the elementary principles, and thus, at an early period in their literary course, forming a taste, a relish, for these languages.

Instruction is given in this department in all the branches of the following

Students who attend the University temporarily, can recite in any of the classes of the foregoing courses of study, for which they are prepared, and in which they can maintain an honorable standing.

RHETORICAL EXERCISES.

1. A course of instruction and practice in Elocution for all the College classes.

2. In the Freshman and Sophomore classes, stated exercises in English composition.

3. In the Junior and Senior classes, written essays on subjects connected with the studies of the year, and original orations pronounced in presence of the faculty and students.

SOCIETIES.

The Calliopean and Franklin Societies, connected with the College, hold meetings weekly in their own halls, for essays, criticisms, orations and debates. They each hold one public exhibition during the year. They have, also, distinct from the University, each a library of from 1,400 to 1,500 volumes, embracing our most choice literary, historical and philosophical works. They have each a valuable cabinet of minerals and natural curiosities.

There is also connected with the University, a Society of Religious Inquiry, which holds monthly meetings in the College chapel, the exercises of which consist in reports of the religious condition of various parts of the world, essays on religious subjects, sketches of sermons and discussions.

DISCIPLINE.

The officers have their rooms in the College edifices, and during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the absence of each student from all exercises upon which his attendance is required; also his degrees of excellence or deficiency in each performance, and his general deportment. This, if re-

quested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

The laws enacted by the Trustees for regulating the internal affairs of the Institution, will, at all times, be enforced by the Faculty with firmness and impartiality. When kindness, and an appeal to honorable principles, or private admonition, will secure the end aimed at in these regulations, *they* will always be preferred and employed; but when these fail to influence any young man faithfully to improve his time and opportunities, his friends will be informed of his delinquencies, that he may be removed from the Institution, if possible, without public censure.

TERMS OF ADMISSION.

Candidates for admission to the Freshman class of the Classical Course must be able to sustain an examination in English Grammar, Geography, Arithmetic, Algebra to Equations of the Second Degree, Andrews and Stoddard's Latin Grammar, three Books of Cæsar's Commentaries, Cicero's Orations, Virgil, Sophocles' Greek Grammar, and Felton's Greek Reader, through the Cyropædia.

For admission to the Scientific Course, students will be examined in all the English branches of our preparatory course of studies.

The Preparatory Department is open for the reception of students of good moral character, who are of suitable age to be removed from the restraints of domestic life, and possess the ordinary capacities for the acquisition of knowledge.

All applicants for admission must present testimonials of good moral character; and students coming from other colleges, a certificate of honorable dismission.

LOCATION AND BUILDINGS.

This University is located in Granville, Licking county, Ohio, three miles north of Union Station, on the Central Ohio Railroad, six

miles west of Newark, and twenty-eight miles east of the city of Columbus; in an uncommonly healthy locality, and in a community distinguished for intelligence and morality.

The buildings consist of one brick edifice, one hundred and thirty-three feet long, and four stories high, containing four recitation rooms, library, cabinet, and rooms with double apartments, for the accommodation of about seventy-five students. There is also a frame edifice for the accommodation of the Preparatory Department. These buildings are situated on a beautiful elevation in the immediate vicinity of the village, and commanding an extensive view of the surrounding country, they offer a delightful retreat to the student.

LIBRARY.

The University Library, to which all the students have access, combined with the libraries of the Literary Societies, comprises about 5,000 volumes.

MINERALOGICAL CABINET.

A large and valuable cabinet of minerals has been procured at great labor and expense. The cabinet of Prof. Carter having been added to the stock of minerals formerly owned by the College, renders it a valuable collection of minerals and fossils.

PUBLIC WORSHIP.

All the students are required, on the forenoon and afternoon of each Sabbath day during term time, to attend divine service with the Faculty, at the Baptist Church, unless they are excused by the President; and no minor from abroad can be permanently excused, without a written request from his parent or guardian, unless he be a communicant in some other church.

EXAMINATIONS.

There is a public examination of each class at the close of each term. All candidates for advanced standing, whether from other colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

TERM BILLS.

There is kept an accurate account of each student's absences from all exercises upon which his attendance is required, and of his conduct and attainments. This account, in connection with the regular term bill, is sent to the student's parent or guardian at the close of each term, if required.

EXPENSES.

The tuition in the College Department is eight dollars for the first term, and ten dollars each for the second and third terms. The tuition in the Agricultural Department is ten dollars. The tuition in the Preparatory Department is six dollars for the first term, and seven dollars and fifty cents each for the second and third terms. The charges for incidental expenses are seventy-five cents for the first term, and one dollar each for the second and third terms.

Room rent in the Central edifice is at the rate of ten dollars per annum, and in the Western edifice at the rate of six dollars per annum. Good board is obtained in respectable families at from $1.50 to $1.75 per week. By associating in clubs, students sometimes obtain board at from one dollar to one dollar and twenty-five cents per week.

FURNITURE, BOOKS, ETC.

The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are, also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

BENEFICIARIES.

Indigent, pious young men, of suitable character, who have the ministry in view, are admitted as beneficiaries of the Ohio Baptist Education Society, by which society they are furnished with free tuition and from $50 to $75 per annum.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing, may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

THEOLOGICAL DEPARTMENT.

At a meeting of the Board of Trustees, in October, 1860, Rev. M. Stone, D.D., was elected Professor of Theology in the University, his services as Professor to commence when the sum of $15,000 is raised for the endowment of that Professorship. Though the financial embarrassments of the country, which soon followed, have prevented the immediate consummation of the work, yet it is confidently hoped that an object which is felt to be of such vital importance will not fail to be accomplished at an early day.

PREPARATORY DEPARTMENT.

This departmment furnishes peculiar facilities for a thorough elementary English education, and embraces such studies, including the elements of the Latin and Greek languages, as are necessary for admission in full, into the classical course of the College Department. Peculiar attention is paid to the pronunciation, etymology, and syntax of these languages. The object is not to hurry pupils

from one author to another, but to make them perfectly familiar, before entering college, with all the elementary principles, and thus, at an early period in their literary course, forming a taste, a relish, for these languages.

Instruction is given in this department in all the branches of the following

Students who attend the University temporarily, can recite in any of the classes of the foregoing courses of study, for which they are prepared, and in which they can maintain an honorable standing.

RHETORICAL EXERCISES.

1. A course of instruction and practice in Elocution for all the College classes.

2. In the Freshmen and Sophomore classes, stated exercises in English composition.

3. In the Junior and Senior classes, written essays on subjects connected with the studies of the year, and original orations pronounced in presence of the faculty and students.

SOCIETIES.

The Calliopean and Franklin Societies, connected with the College, hold meetings weekly, in their own halls, for essays, criticisms, orations and debates. They each hold one public exhibition during the year. They have, also, distinct from the University, each a library of from 1,400 to 1,500 volumes, embracing our most choice literary, historical and philosophical works. They have each a valuable cabinet of minerals and natural curiosities.

There is also connected with the University, a Society of Religious Inquiry, which holds monthly meetings in the College chapel, the exercises of which consist in reports of the religious condition of

various parts of the world, essays on religious subjects, sketches of sermons and discussions.

There is also a Literary Society connected with the Preparatory Department.

DISCIPLINE.

The officers have their rooms in the College edifices, and during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the absence of each student from all exercises upon which his attendance is required; also his degrees of excellence or deficiency in each performance, and his general deportment. This, if requested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

The laws enacted by the Trustees for regulating the internal affairs of the Institution, will, at all times, be enforced by the Faculty with firmness and impartiality. When kindness, and an appeal to honorable principles, or private admonition, will secure the end aimed at in these regulations, *they* will always be preferred and employed; but when these fail to influence any young man faithfully to improve his time and opportunities, his friends will be informed of his delinquencies, that he may be removed from the Institution, if possible, without public censure.

TERMS OF ADMISSION.

Candidates for admission to the Freshmen class of the Classical Course must be able to sustain an examination in English Grammar, Geography, Arithmetic, Algebra to Equations of the Second Degree, Andrews and Stoddard's Latin Grammar, three Books of Cæsar's Commentaries, Cicero's Orations, Virgil, Sophocles' Greek Grammar, and Felton's Greek Reader, through the Cyropædia.

For admission to the Scientific Course, students will be examined in all the English branches of our preparatory course of studies.

The Preparatory Department is open for the reception of students

of good moral character, who are of a suitable age to be removed from the restraints of domestic life, and possess the ordinary capacities for the acquisition of knowledge.

All applicants for admission must present evidence of good moral character; and students coming from other colleges, a certificate of honorable dismission.

LOCATION AND BUILDINGS.

This University is located in Granville, Licking county, Ohio, three miles north of Union Station, on the Central Ohio Railroad, six miles west of Newark, and twenty-eight miles east of the city of Columbus; in an uncommonly healthy locality, and in a community distinguished for intelligence and morality.

The buildings consist of one brick edifice, one hundred and thirty-three feet long, and four stories high, containing four recitation rooms, library, cabinet, and rooms with double apartments, for the accommodation of about seventy-five students. There is also a frame edifice for the accomodation of the Preparatory Department. These buildings are situated on a beautiful elevation in the immediate vicinity of the village, and commanding an extensive view of the surrounding country, they offer a delightful retreat to the student.

LIBRARY.

The University Library, to which all the students have access, contains 6,100 volumes; and combined with the Libraries of the Literary Societies, about 9,100 volumes. Having been greatly enlarged by the purchase of the Library of the Fairmount Theological Seminary, and other valuable accessions; and containing many rare works of great value, it presents eminent facilities for investigations by the professor, and the acquisition of knowledge by the pupil, in the various departments of literature and the sciences. As a library adapted to the wants of students seeking a thorough collegiate education, it is thought to have but few equals in western colleges.

MINERALOGICAL CABINET.

The Cabinet of the University, which, by purchases, donations, exchanges and exertions of the professors in that department, has been accumulating for nearly thirty years, contains a very extensive and valuable collection of minerals and fossils. It is not only particularly rich in the fossils of the state of Ohio, but it contains numerous specimens of both fossils and minerals from different parts of our own continent and from foreign countries.

PUBLIC WORSHIP.

All the students are required, on the forenoon and afternoon of each Sabbath day during term time, to attend divine service with the Faculty, at the Baptist Church, unless they are excused by the President; and no minor from abroad can be permanently excused, without a written excuse from his parent or guardian, unless he be a communicant in some other church.

EXAMINATIONS.

There is a public examination of each class at the close of each term. All candidates for advanced standing, whether from other colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

No student can be promoted to an advanced standing without an examination.

EXPENSES.

The tuition in the College Department is eight dollars for the first term, and ten dollars each for the second and third terms. The tuition in the Agricultural Department is ten dollars. The tuition in the Preparatory Department is six dollars for the first term, and seven dollars and fifty cents each, for the second and third terms.

Those who rent scholarships usually obtain them at about five or six dollars per term.

The charges for incidental expenses are seventy-five cents for the first term, and one dollar each for the second and third terms.

Room rent in the Central edifice is at the rate of ten dollars per annum, and in the Western edifice at the rate of six dollars per annum.

Bills for the above expenses are payable at the commencement of each term.

Good board is obtained in respectable families at from one dollar and fifty cents to one dollar and seventy-five cents per week. By associating in clubs, students sometimes obtain board at from one dollar to one dollar and twenty-five cents per week.

FURNITURE, BOOKS, ETC.

The students provide for themselves bed and bedding, furniture for their room, fuel, lights, books, stationery and washing. Stoves and bedsteads are furnished by the College.

There are, also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

BENEFICIARIES.

Indigent, pious young men, of suitable character, who have the ministry in view, are admitted as beneficiaries of the Ohio Baptist Education Society, by which Society they are furnished with free tuition and from $50 to $75 per annum.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts, is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same.

Bachelor of Sciences.—This Degree is conferred on those persons who have completed in a satisfactory manner the scientific course

of studies in this University, and sustain a creditable examination in the same at the close.

Candidates for these degrees are required to pay to the Treasurer their dues, including a graduating fee of five dollars, and present a certificate of the same to the President, as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing, may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

The course of studies in this Department is one adapted to the wants of that large class of the ministry in this State and other portions of the West who cannot, from age or other circumstances, go through the regular course of studies in any of our Eastern Theological Institutions. All such are invited to avail themselves of the advantages furnished by this Department for such a course of theological studies as may be adapted to their wants, free of any charge for tuition.

Preparatory Department.

This Department furnishes peculiar facilities for a thorough elementary English education, and embraces such studies, including the elements of the Latin and Greek languages, as are necessary for admission in full, into the classical course of the College Department. Peculiar attention is paid to the pronunciation, etymology and syntax of these languages. The object is not to hurry pupils from one author to another, but to make them perfectly familiar, before entering college,

with all the elementary principles, and thus, at an early period in their literary course, forming a taste, and a relish, for these languages.

Instruction is given in this Department in all the branches of the following

Course of Studies.

Students who attend the University temporarily, can recite in any of the classes of the foregoing courses of study, for which they are prepared, and in which they can maintain an honorable standing.

RHETORICAL EXERCISES.

1. A course of instruction and practice in Elocution for all the College classes.

2. In the Freshman and Sophomore classes, stated exercises in English composition.

3. In the Junior and Senior classes, written essays on subjects connected with the studies of the year, and original orations pronounced in presence of the Faculty and students.

SOCIETIES.

The Calliopean and Franklin Societies, connected with the College, hold meetings weekly, in their own halls, for essays, criticisms, orations and debates. They each hold one public exhibition during the year. They have, also, distinct from the University, each a library of from 1,400 to 1,500 volumes, embracing our most choice literary, historical and philosophical works. They have each a valuable cabinet of minerals and natural curiosities.

There is also connected with the University, a Society of Religious Inquiry, which holds monthly meetings in the College Chapel, the exercises of which consist in reports of the

religious condition of various parts of the world, essays on religious subjects, sketches of sermons, and discussions.

There is also a Literary Society connected with the Preparatory Department.

DISCIPLINE.

The officers have their rooms in the College edifices, and during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the absence of each student from all exercises upon which his attendance is required; also his degrees of excellence or deficiency in each performance, and his general deportment. This, if requested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

The laws enacted by the Trustees for regulating the internal affairs of the Institution, will, at all times, be enforced by the Faculty with firmness and impartiality. When kindness, and an appeal to honorable principles, or private admonition, will secure the end aimed at in these regulations, *they* will always be preferred and employed; but when these fail to influence any young man faithfully to improve his time and opportunities, his friends will be informed of his delinquencies, that he may be removed from the Institution, if possible, without public censure.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class of the Classical Course must be able to sustain an examination in English Grammar, Geography, Arithmetic, Algebra to Equations of the Second Degree, Andrews and Stoddard's Latin Grammar, three Books of Cæsar's Commentaries, Cicero's Orations, Virgil, Sophocles' Greek Grammar, and Felton's Greek Reader, through the Cyropædia.

For admission to the Scientific Course, students will be examined in all the English branches of our preparatory course of studies.

The Preparatory Department is open for the reception of students of good moral character, who are of a suitable age to be removed from the restraints of domestic life, and possess the ordinary capacities for the acquisition of knowledge.

All applicants for admission must present evidence of good moral character; and students coming from other colleges, a certificate of honorable dismission.

LOCATION AND BUILDINGS.

This University is located in Granville, Licking County, Ohio, three miles north of Union Station, on the Central Ohio Railroad, six miles west of Newark, and twenty-eight miles east of the city of Columbus; in an uncommonly healthy locality, and in a community distinguished for intelligence and morality.

The buildings consist of one brick edifice, one hundred and thirty-three feet long and four stories high, containing four recitation rooms, library, cabinet, and rooms with double apartments, for the accommodation of about seventy-five students. There is also a frame edifice for the accommodation of the Preparatory Department. These buildings are situated on a beautiful elevation in the immediate vicinity of the village, and commanding an extensive view of the surrounding country, they offer a delightful retreat to the student.

LIBRARY.

The University Library, to which all the students have access, contains 6,100 volumes; and, combined with the Librararies of the Literary Societies, about 9,100 volumes. Having been greatly enlarged by the purchase of the Library of the Fairmount Theological Seminary, and other valuable accessions; and containing many rare works of great value, it presents eminent facilities for investigations by the professor, and the acquisition of knowledge by the pupil, in the various departments of literature and the sciences. As a library adapted to the wants of students seeking a thorough collegiate education, it is thought to have but few equals in western colleges.

MINERALOGICAL CABINET.

The Cabinet of the University, which, by purchases, donations, exchanges and exertions of the professors in that department, has been accumulating for nearly thirty years, contains a very extensive and valuable collection of minerals and fossils. It is not only particularly rich in the fossils of the State of Ohio, but it contains numerous specimens of both fossils and minerals from different parts of our own continent and from foreign countries.

PUBLIC WORSHIP.

All the students are required, on the forenoon and afternoon of each Sabbath day during term time, to attend divine service with the Faculty, at the Baptist Church, unless they are excused by the President; and no minor from abroad can be permanently excused, without a written excuse from his parent or guardian, unless he be a communicant in some other church.

EXAMINATIONS.

There is a public examination of each class at the close of each term. All candidates for advanced standing, whether from other colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

No student can be promoted to an advanced standing without an examination.

EXPENSES.

The tuition in the College Department is eight dollars for the first term, and ten dollars each for the second and third terms. The tuition in the Agricultural Department is ten dollars. The tuition in the Preparatory Department is six dollars for the first term, and seven dollars and fifty cents each for the second and third terms.

The charges for incidental expenses are seventy-five cents for the first term, and one dollar each for the second and third terms.

Room-rent in the Central edifice is at the rate of ten dollars per annum, and in the Western edifice at the rate of six dollars per annum.

Bills for the above expenses are payable at the commencement of each term.

Good board is obtained in respectable families at one dollar and fifty cents per week. By associating in clubs, students sometimes obtain board at from one dollar to one dollar and twenty-five cents per week.

FURNITURE, BOOKS, Etc.

The students provide for themselves bed and bedding, furniture for their room, fuel, lights, books, stationery, and washing. Stoves and bedsteads are furnished by the College.

There are, also, in the several classes and Literary Societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

BENEFICIARIES.

Indigent, pious young men, of suitable character, who have the ministry in view, are admitted as beneficiaries of the Ohio Baptist Education Society, by which Society they are furnished with free tuition and from $50 to $75 per annum.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts, is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same.

Bachelor of Sciences.—This Degree is conferred on those persons who have completed, in a satisfactory manner, the

scientific course of studies in this University, and sustain a creditable examination in the same at the close.

Candidates for these Degrees are required to pay to the Treasurer their dues, including a graduating fee of five dollars, and to present a certificate of the same to the President, as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing, may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

College Calendar.

THEOLOGICAL DEPARTMENT.

The course of studies in this Department is one adapted to the wants of that large class of the ministry in this State and other portions of the West who cannot, from age or other circumstances, go through the regular course of studies in any of our Eastern Theological Institutions. All such are invited to avail themselves of the advantages furnished by this Department for such a course of theological studies as may be adapted to their wants, free of any charge for tuition.

PREPARATORY DEPARTMENT.

This Department furnishes peculiar facilities for a thorough elementary English education, and embraces such studies, including the elements of the Latin and Greek languages, as are necessary for admission in full, into the Classical Course of the College Department. Peculiar attention is paid to the pronunciation, etymology, and syntax of these languages. The object is not to hurry pupils from one author to another, but to make them perfectly fa-

miliar, before entering college, with all the elementary principles, and thus, at an early period in their literary course, forming a taste and a relish for these languages.

Instruction is given in this Department in all the branches of the following

Students who attend the University temporarily, can recite in any of the classes of the foregoing courses of study, for which they are prepared, and in which they can maintain an honorable standing.

RHETORICAL EXERCISES.

1. A course of instruction and practice in Elocution for all the College classes.

2. In the Freshmen and Sophomore classes, stated exercises in English composition.

3. In the Junior and Senior classes, written essays on subjects connected with the studies of the year, and original orations pronounced in presence of the Faculty and students.

SOCIETIES.

The Calliopean and Franklin Societies, connected with the College, hold meetings weekly, in their own halls, for essays, criticisms, orations and debates. They each hold one public exhibition during the year. They have, also, distinct from the University, each a library of from 1,400 to 1,500 volumes, embracing our most choice literary, historical and philosophical works. They have each a valuable cabinet of minerals and natural curiosities.

There is also connected with the University, a Society of Religious Inquiry, which holds monthly meetings in the College Chapel, the exercises of which consist in reports of the religious condition of various parts of the world, essays on religious subjects, sketches of sermons, and discussions.

There is also a Literary Society connected with the Preparatory Department.

DISCIPLINE.

The officers have their rooms in the College edifices, and during hours appropriated to study, maintain quietness and good order in the halls and over the premises. They also keep a register, showing the absence of each student from all exercises upon which his attendance is required; also his degrees of excellence or deficiency in each performance, and his general deportment. This, if requested, is, at the close of the term, transmitted to parents or guardians, and is open at all times to their inspection.

The laws enacted by the Trustees for regulating the internal affairs of the Institution, will, at all times, be enforced by the Faculty with firmness and impartiality. When kindness, and an appeal to honorable principles, or private admonition, will secure the end aimed at in these regulations, *they* will always be preferred and employed; but when these fail to influence any young man faithfully to improve his time and opportunities, his friends will be informed of his delinquencies, that he may be removed from the Institution, if possible, without public censure.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class of the Classical Course must be able to sustain an exam-

ination in English Grammar, Geography, Arithmetic, Algebra to Equations of the Second Degree, Andrews and Stoddard's Latin Grammar, three books of Cæsar's Commentaries, Cicero's Orations, Virgil, Sophocles' Greek Grammar, and Felton's Greek Reader, through the Cyropædia.

For admission to the Scientific Course, students will be examined in all the English branches of our preparatory course of studies.

The Preparatory Department is open for the reception of students of good moral character, who are of a suitable age to be removed from the restraints of domestic life, and possess the ordinary capacities for the acquisition of knowledge.

All applicants for admission must present evidence of good moral character; and students coming from other colleges, a certificate of honorable dismission.

LOCATION AND BUILDINGS.

This University is located in Granville, Licking County, Ohio, three miles north of Union Station, on the Central Ohio Railroad, six miles west of Newark, and twenty-eight miles east of the city of Columbus; in an uncommonly healthy locality, and in a community distinguished for intelligence and morality.

The buildings consist of one brick edifice, one hundred and thirty-three feet long and four stories high, containing four recitation rooms, library, cabinet, and rooms with double apartments, for the accomodation of about seventy-five students. There is also a frame edifice for the accommodation of the Preparatory Department. These buildings are situated on a beautiful elevation in the immediate vicinity of the village, and commanding an extensive view of the surrounding country, they offer a delightful retreat to the student.

LIBRARY.

The University Library, to which all the students have access, contains 6,100 volumes; and, combined with the Libraries of the Literary Societies, about 9,100 volumes. Having been greatly enlarged by the purchase of the Library of the Fairmount Theological Seminary, and other valuable accessions; and containing many rare works of great value, it presents eminent facilities for investigations by the professor, and the acquisition of knowledge by the pupil, in the various departments of literature and the sciences. As a library adapted to the wants of students seeking a thorough collegiate education, it is thought to have but few equals in western colleges.

MINERALOGICAL CABINET.

The Cabinet of the University, which, by purchases, donations, exchanges and exertions of the professors in that department, has been accumulating for nearly thirty years, contains a very extensive and valuable collection of minerals and fossils. It is not only particularly rich in the fossils of the State of Ohio, but it contains numerous specimens of both fossils and minerals from different parts of our own continent and from foreign countries.

PUBLIC WORSHIP.

All the students are required, on the forenoon and afternoon of each Sabbath day during term time, to attend divine service with the Faculty, at the Baptist Church, unless they are excused by the President; and no minor from abroad can be permanently excused, without a written excuse from his parent or guardian, unless he be a communicant in some other church.

EXAMINATIONS.

There is a public examination of each class at the close of each term. All candidates for advanced standing, whether from other colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No student can be promoted to an advanced standing without an examination.

EXPENSES.

The tuition in the College Department is eight dollars for the first term, and ten dollars each for the second and third terms. The tuition in the Agricultural Department is ten dollars. The tuition in the Preparatory Department is six dollars for the first term, and seven dollars and fifty cents each for the second and third terms.

The charges for incidental expenses are seventy-five cents for the first term, and one dollar each for the second and third terms.

Room-rent in the Central edifice is at the rate of ten dollars per annum, and in the Western edifice at the rate of six dollars per annum.

Bills for the above expenses are payable at the commencement of each term.

Good board is obtained in respectable families at one dollar and fifty cents per week. By associating in clubs, students sometimes obtain board at from one dollar to one dollar and twenty-five cents per week.

FURNITURE, BOOKS, ETC.

The students provide for themselves bed and bedding, furniture for their room, fuel, lights, books, stationery, and washing. Stoves and bedsteads are furnished by the College.

There are, also, in the several classes and Literary Societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

BENEFICIARIES.

Indigent, pious young men, of suitable character, who have the ministry in view, are admitted as beneficiaries of the Ohio Baptist Education Society, by which Society they are furnished with free tuition and from $50 to $75 per annum.

DEGREES.

Bachelor of Arts.— The Degree of Bachelor of Arts, is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same.

Bachelor of Sciences.— This Degree is conferred on those persons who have completed, in a satisfactory manner, the scientific course of studies in this University, and sustain a creditable examination in the same at the close.

Candidates for these Degrees are required to pay to the Treasurer their dues, including a graduating fee of five dollars, and to present a certificate of the same to the President, as early as the Monday before Commencement.

Master of Arts.— Every Bachelor of Arts of three years' or longer standing, may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.
